

## NY State Sen Liz Krueger on IDC-Republican 'Power-Sharing' Agreement

On November 6th, voters elected a majority of Democrats in the Senate, because of the failure of the Senate Republicans to reform our legislative process and advance the progressive agenda that most New Yorkers support. It would be tragic if a "coalition" of Republicans, party-switchers and "independent" past failed leaders thwarted that agenda. Right now, it all just looks like another Albany backroom deal to empower a select few Democrats while forestalling the Senate Republicans' inevitable fall from power. We know what the coalition members got for making this deal, but it remains to be seen what, if anything, New Yorkers will get.
