

Introducing AdaptNY: Join The Conversation On Climate Change Adaptation

Posted on Jun 11, Posted by [Administrator](#) Category [City](#)

As Mayor Michael Bloomberg [unveils his administration's vision for making New York City more resilient to climate change](#), Gotham Gazette is working to help democratize the public debate on the issues.

Gotham Gazette is partnering with veteran journalists and technology pioneers to bring you [AdaptNY](#), which aims to "curate, document and foster conversation about how New York will adapt to the coming challenges of climate change."

The project is led by veteran journalist [A. Adam Glenn](#), of the CUNY Graduate School of Journalism.

The project will be edited and curated by Glenn, and Gotham Gazette will be providing content and editorial guidance. We'll also be promoting AdaptNY's efforts on Facebook and Twitter, and encourage readers to visit the project site.

We are also proud to be partnering with [DocumentCloud](#) to develop an online tool for stimulating public policy discussion around key reports on climate change.

That tool will be made available to the general public in a few weeks.

Questions about the project can be sent to editor@adaptny.org
